On behalf of the European Association of Nuclear Medicine, it is my great honour to invite you to the 33rd Annual EANM Congress, which will take place virtually from 22 to 30 October 2020.

Nuclear Medicine keeps on growing in many clinical areas, from diagnostic imaging to therapy: our procedures are increasingly being incorporated into clinical practice, in a variety of settings and diseases. This success is mostly related to a peculiar characteristic of our specialty, namely the functional approach to medicine. PET imaging works so well because of the unique functional information provided to clinicians, and this feature is the key to the ongoing rapid diffusion of Nuclear Medicine.

In recent years, the status of the EANM Congress as the world-leading meeting in Nuclear Medicine has been firmly established. The number of attendees in 2019 exceeded that in any previous year, with more than 6950 participants, but we are working to make the 2020 event even bigger, more memorable, and virtual.

EANM cares for its members, participants and patients, with safety being our primary concern as COVID-19 continues to pose a major health threat worldwide. Therefore, it was decided that it is in the best interest of the entire NM community to go virtual only.

A further characteristic of our Congress is its multidisciplinarity, and this will be emphasised in 2020, with a number of sessions bringing together physicians from many specialties as well as specialists in radiochemistry and pharmacy, physicists and other professionals. In addition, a dedicated track for technologists will be provided.

If all of this still isn’t enough to motivate you to attend the EANM’20 Congress virtually, we are working on providing some extra entertainment to make your virtual experience even more fun. This will include a daily nuclear quiz, daily programme highlights’ announcements, games and social opportunities.

Stefano Fanti
EANM Congress Chair 2020–2022
EANM BOARD

The Board is the highest executive level of the association, creating and safeguarding the EANM’s vision to help the specialty continue to thrive.

Promoting scientific excellence is one of the cornerstones of the EANM’s strategy that is proudly showcased at the annual congress.

Legend:  
- **Plenary Sessions**  
- **CME Sessions**  
- **Joint Special Symposium**  
- **Technologist Track**  
- **M2M Track**  
- **Cutting Edge Science Track**  
- **Pitfalls & Artefacts Teaching Sessions**  
- **Clinical Oncology Track**  
- **Mid-Congress Symposium**  
- **Further TROP/Featured Sessions**  
- **e-Poster Presentation Sessions**  
- **Special Sessions**
PRESENTATION TYPES

INVITED SPEAKERS

Invited talks will be presented in different types of sessions (hereunder in alphabetical order):

- **CME Session**: 90 minutes session, granting CME credits
- **CTE Session**: 90 minutes session, part of the Technologist’s Track
- **Featured Session**: 90 minutes session, invited speakers give an introduction talk on the topic, followed by accepted paper presentations
- **Joint Symposium**: 90 minutes session, jointly organised in cooperation between EANM and its partner societies to provide a multidisciplinary approach
- **Mini Course**: 60 minutes sessions, part of the Technologist’s Track
- **Pitfalls & Artefacts Session**: 90 minutes session, presentation of clinical cases
- **Plenary Session**: 75 minutes session with five or more speakers, being the most prestigious sessions of EANM, allowing everybody to join as no other sessions run in parallel
- **Mid-Congress Symposium**: 180 minutes session incl. coffee breaks, on Saturday only. Additional CME credits will be granted. Extra charges apply
- **Mid-Congress Symposium Technologists**: full day session incl. two coffee breaks, on Saturday only. Extra charges apply
- **Teaching Session**: 90 minutes session, presentation of clinical cases

PRESENTATION TYPES

ACCEPTED ABSTRACTS WITH ORAL ONSITE PRESENTATION

Accepted papers of EANM´20 will be presented in different types of session formats (hereunder in alphabetical order):

- **e-Poster Presentation Session (EPP)**: Each paper will be presented as uploaded e-Poster in a 5 minutes slot
- **e-Poster Presentation Session Technologists (TEPP)**: Each paper will be presented as uploaded e-Poster in a 4 minutes slot
- **Featured Sessions**: Invited speakers give an introduction talk on the topic, followed by accepted papers. Each paper will be presented by using powerpoint slides in a 7 minutes slot
- **Top Rated Oral Presentation (TROP) Session**: Each paper will be presented by using powerpoint slides in a 7 minutes slot

PRESENTATION TYPES

ACCEPTED ABSTRACTS WITH NO ORAL PRESENTATION

- **e-Poster (only)**: Digital posters are uploaded as electronic poster to the e-Poster System. Those papers do not have an onsite presentation but are available throughout the congress in the e-Poster Area. Submitters can be contacted via email through the system.
**MID-CONGRESS SYMPOSIA**

Friday, October 30, 15:10 – 16:25
What's Cooking? Next Generation Radiopharmaceuticals
Chairpersons: Jane Sosabowski (UK), Melpomeni Fani (CH), Wolfgang Wadsak (AT)
- What's New?, Melpomeni Fani (CH)
- FAP-Inhibitors are the Future – For Everything?, Uwe Haberkorn (DE)
- Brain Tracers – Finally for Clinical Application?, Valentina Garibotto (CH)
- Is Theranostics the Future in Nuclear Medicine?, Michael Hofman (AU)
- Do we need Specific Tracers in the Clinics?, Mehmet Ozak (TR)
- Why does it take so long?, Jane Sosabowski (UK)
- Discussion, All Speakers

Friday, October 30, 17:12 – 18:12
Highlights Lecture
Moderators: Roland Hustinx (BE), Arturo Chiti (IT)
Continuing Medical Education Sessions will span over five days of the EANM’20 Virtual Congress. The congress has been accredited by the European Accreditation Council for Continuing Medical Education (EACCME®) for a maximum of 31 European CME credits (ECMEC®s).

1. Thursday, October 22, 13:30 – 15:00
   Radar on Gynaecological Cancers
   Translational Molecular Imaging and Therapy + Oncology & Theranostics Committee

2. Thursday, October 22, 16:35 – 18:05
   Software Tools and Approaches to Measure Nuclear Brain Images
   Neuroimaging + Physics Committee

3. Friday, October 23, 09:00 – 10:30
   Finding the Right PET Companion for ImmunoOncology
   Radiopharmacy + Oncology & Theranostics + Translational Molecular Imaging and Therapy Committee

4. Friday, October 23, 10:40 – 12:10
   Multimodality Imaging-Based Problem Solving for Multiple Bone Lesions
   Bone & Joint Committee

5. Friday, October 23, 13:50 – 15:20
   Imaging Hepatobiliary and Pancreatic Tumours – Pearls, Patterns and Pitfalls
   Oncology & Theranostics Committee

6. Friday, October 23, 16:55 – 18:25
   Bloody Hell!!! Impact on Quantitation of Blood Radiotracer Measurements
   Drug Development + Radiopharmacy + Neuroimaging Committee

7. Saturday, October 24, 09:00 – 10:30
   Nuclear Medicine in Paediatric Infections
   Inflammation & Infection + Paediatrics Committee

8. Saturday, October 24, 10:40 – 12:10
   Emergency Conditions in Paediatric Nuclear Medicine
   Paediatrics Committee

9. Thursday, October 29, 13:30 – 15:00
   New PET Technologies – Digital Revolution or Big Bust?
   Oncology & Theranostics + Physics Committee

10. Thursday, October 29, 16:35 – 18:05
    Radiomics in Thyroid Imaging
    Thyroid Committee

11. Friday, October 30, 09:00 – 10:30
    SLN – Past and Future
    Oncology & Theranostics + Translational Molecular Imaging and Therapy Committee

12. Friday, October 30, 10:40 – 12:10
    Alpha Particle Therapy Without Imaging – Options for Dosimetry, the Alpha and Omega
    Dosimetry Committee

13. Friday, October 30, 13:30 – 15:20
    Radiomics in a Preclinical and a Clinical Setting
    Translational Molecular Imaging and Therapy + Physics + Oncology & Theranostics + Technologist Committee

14. Friday, October 30, 15:30 – 17:00
    Molecular Drug Imaging of Solid Tumours Including Microenvironment
    Oncology & Theranostics Committee
JOINT SYMPOSIA

EANM is again teaming up with its partner societies to fully reflect the multidisciplinarity of Nuclear Medicine.
Find the list of Joint Symposia hereunder.

1. Imaging Neuroinflammation  
   Drug Development Committee / EFMC

2. Nano- and Micro-Particles in Nuclear Medicine (Incl. Radioembolisation)  
   Translational Molecular Imaging and Therapy + Drug Development + Radiopharmacy + Oncology & Theranostics Committee / WMIS

3. Primary Staging of Prostate Cancer Reloaded  
   Oncology & Theranostics Committee / EAU

4. Hot Topics in Radiation Protection  
   Radiation Protection Committee / EURADOS

5. Use of PET in Multiple Myeloma  
   Oncology & Theranostics Committee / EHA

6. Detecting Cardiac Toxicity of Cancer Therapies with Nuclear Imaging  
   Cardiovascular Committee / ASNC

7. Multiple Sclerosis – Update in Neuroimaging  
   Neuroimaging Committee / EAN / ECTRIMS

8. The Revival of Radiometals  
   Radiopharmacy + Drug Development Committee / SRS

9. Imaging Pulmonary Fungal Infections  
   Inflammation & Infection Committee / ESMI / ESCMID

10. Nuclear Cardiology Beyond Perfusion Imaging  
    Cardiovascular Committee / ASNC

11. How Much PET does Radiation Oncology Require?  
    Oncology & Theranostics Committee / ESTRO

12. Selecting the Right Imaging for the Right Patient in CAD  
    Cardiovascular Committee / EACVI

13. Metabolic Tumour Volume (MTV) in Lymphoma  
    Oncology & Theranostics Committee / EHA

14. Transporter’s Imaging  
    Drug Development Committee / SRS

15. Systemic Therapeutic Options in Advanced Thyroid Cancer  
    Thyroid Committee / EPN.CG

16. Role of Hybrid Imaging in Jaw and Skull Conditions  
    Bone & Joint Committee / EAMPS

17. Benchside to Bedside and Back – What do we Learn from the Clinic?  
    Drug Development Committee / EORTC

18. Imaging Tumour Microenvironment  
    Oncology & Theranostics + Inflammation & Infection Committee / AIO

19. Impacting the Outcome of High Grade NET Patients  
    Oncology & Theranostics Committee / ENETS

20. Simultaneous PET/MR Imaging of Neuroreceptor Systems  
    Neuroimaging Committee / ECNP

21. Total Body PET Imaging  
    Drug Development + Physics Committee / IEEE

22. Nuclear Medicine Techniques in the Evaluation of GI Motility in Children  
    Paediatrics Committee / ESPGHAN

23. New Diagnostic and Therapeutic Frontiers in Digestive Oncology  
    Oncology & Theranostics Committee / ESDO

24. Technical Advances in Paediatric Dose Reduction  
    Physics + Paediatrics Committee / EFOMP

25. Immunotherapy in Brain Tumours  
    Neuroimaging Committee / EANO

26. Quantitative SPECT – An Essential Tool?  
    Physics + Oncology & Theranostics Committee / AAPM

27. Radar on Immune Cell Imaging  
    Translational Molecular Imaging and Therapy + Oncology & Theranostics + Cardiovascular + Inflammation & Infection Committee / ESMI

28. New Approaches for Cardiovascular Imaging  
    Cardiovascular + Translational Molecular Imaging and Therapy + Drug Development Committee / AHA

JOINT SYMPOSIA
EANM YOUNG DAILY FORUM

The EANM Young Daily Forum is the ideal platform for all young talents attending the EANM congress – and those young at heart! It consists of a series of interactive lunch-time sessions open to all participants, particularly those who are at the beginning of their career.

Each 1.5 hours’ time slot will focus on a different topic, two of them will be moderated in an interactive way by the professional facilitator Roy Sheppard. Participants will not only benefit from Roy’s vast experience as moderator and speaker, but will also have the opportunity to get to know new people in a relaxed atmosphere. The session on Wednesday will feature two highly experienced editors-in-chief, Arturo Chiti from the EJNMMI and Johannes Czernin from the JNM, as well as the former editor-in-chief of the EJNMMI and world-renowned nuclear medicine expert Ignasi Carrió from Spain. Participation is free for everyone registered to the EANM Annual Congress.

1. Monday, October 26
   12:20 - 13:50
   Simply the Best – Presentation Skills for Medical Professionals

2. Tuesday, October 27
   12:20 - 13:50
   I will Survive - Managing Work Stress and Building Your Resilience

3. Wednesday, October 28
   12:20 - 13:50
   Nothing Else Matters - Get Your Paper Published in a Top Journal

PITFALLS & ARTEFACTS SESSIONS

This year’s seven sessions will span over four days of the congress. Renowned specialists will present interesting cases with challenging findings, either pitfalls and/or artefacts to improve your skillness.

1. Thursday, October 22, 13:30 – 15:00
   Unexpected Findings in Brain Imaging
   Neuroimaging Committee

2. Thursday, October 22, 16:35 – 18:05
   Pre- and Post Therapeutic Imaging in Thyroid Cancer
   Thyroid Committee

3. Friday, October 23, 13:50 – 15:20
   Dosimetry as Part of Patient Care
   Dosimetry Committee

4. Friday, October 23, 16:55 – 18:25
   Interpretation of Response Monitoring During Immune Therapy
   Oncology & Theranostics + Inflammation & Infection Committee

5. Thursday, October 29, 13:30 – 15:00
   FDG-PET Performed or Suspicious for Infections and Inflammation, Including COVID-19
   Inflammation & Infection Committee

6. Thursday, October 29, 16:35 – 18:05
   Pitfalls and Artefacts in Paediatric Nuclear Medicine
   Paediatrics Committee

7. Friday, October 30, 13:50 – 15:20
   Bone SPECT/CT Revisited – Learning an Old Fox New Tricks
   Bone & Joint Committee
TEACHING SESSIONS

This year's seven teaching sessions will span over three days of the congress. Specialists will present interesting cases and will guide you from patients' history through diagnosis to treatment options.

1. Friday, October 23, 09:00 – 10:30
   Quantification and Standardisation in Clinical and Preclinical Molecular Imaging
   Translational Molecular Imaging and Therapy + Physics Committee / EARL

2. Friday, October 23, 10:40 – 11:40
   The Uncomfortable Truth – Are Nuclear Medicine Physicians Viewed as Second Class Doctors Compared to Radiologists?

3. Saturday, October 24, 09:00 – 10:30
   A Practical Guide to MR when Reading PET/MR

4. Saturday, October 24, 10:40 – 11:40
   The Intellectual and Emotional Journey to Radiology and Nuclear Equality

5. Friday, October 30, 09:00 – 10:30
   PET/CT Guided Biopsy
   Oncology & Theranostics Committee

6. Friday, October 30, 10:40 – 12:10
   Difficult Cases in Cardiac Imaging
   Cardiovascular Committee

7. Friday, October 30, 13:50 – 15:20
   Molecular Imaging in Thyroid Nodules
   Thyroid Committee

EANM RESEARCH LTD (EARL)

EARL is a 100% subsidiary of the EANM, which aims to enhance the quality of nuclear medicine practice for the benefit of public health.
The Cutting Edge Science Track (formerly known as the International Symposium on Dosimetry and Molecular Radiotherapy) will take place during the 33rd Annual Congress of the European Association of Nuclear Medicine.

The International Symposium on Dosimetry and Molecular Radiotherapy (DoMoRe) has taken place during the Annual Congress of the European Association of Nuclear Medicine for five consecutive years. It resulted from a series of interesting and important radiopharmaceutical and dosimetry symposia held from 1970 onwards and then continued at the 2004 EANM Congress and the 2009 SNM Congress. These symposia were formerly known as ISTARD (the International Symposium on Targeted Radiotherapy and Radiopharmaceutical Dosimetry). Since 2015, the symposia have been organised annually in parallel with the EANM Congress and the name was changed to DoMoRe in order to emphasise the importance of dosimetry.

This year, it was decided together with the chairs of the committees involved to reorganize this separate track within the EANM Congress. The aim of this reorganization is to bring together all of the disciplines concerned with physics, dosimetry and radiobiology and to provide attendees with the most cutting edge innovations in these fields. Medical physics is a complex specialty which covers a broad range of areas ranging from the development of new detectors/ imaging equipment to image reconstruction and quantification, dosimetry, tracer kinetics, radiobiology and radiation protection. Today’s new challenges include the integration of Artificial Intelligence (AI) into most of these technical areas as well as its eventual implementation in clinical practice. Therefore, we decided to rename this track and give priority to the presentation of the most innovative aspects of all of these disciplines. In addition, one major objective is to enhance the interaction between all of these disciplines given their prominent role within the field of nuclear medicine by promoting a deeper interdisciplinary scientific discussion. Consequently, there will be more featured sessions which combine guest speakers and paper presentations and which involve clinical contributors.

The Cutting Edge Science Track will start with many featured sessions (combining guest speakers and paper presentations) throughout the main congress days and an outstanding plenary session concerning “Total Body PET”. In addition, some mid-congress symposia, namely with “Artificial Intelligence in Image Acquisition, Reconstruction and Processing”, “Lutetium Therapy”, and “Improved insights on Radiobiology” have been planned.

The Cutting Edge Science Track will take place during the 33rd Annual Congress of the European Association of Nuclear Medicine.

Mark Konijnenberg, EANM Dosimetry Committee
Søren Holm, EANM Radiation Protection Committee
Dimitris Visvikis, EANM Physics Committee

M2M – The 7th “From Molecule to Man” Track, covering translational developments in Imaging and Therapy will take place during the 33rd Annual Congress of the European Association of Nuclear Medicine.

The 7th M2M Track will take place during the 33rd Annual Congress of the European Association of Nuclear Medicine.

Since 2014, the M2M sessions have constituted one of the main pillars in the programme of the annual EANM Congress. With the M2M track the EANM aims to actively stimulate multidisciplinary cooperation concerning molecular/nuclear imaging and therapy. By providing a platform for a wide range of scientific and medical aspects, M2M sessions have succeeded in attracting scientists (e.g. radiochemists, physicists and biologists), industry representatives and clinicians alike. With that, a successful stepping stone for translational science has been established.

Fijkstra van Leeuwen, EANM Translational Molecular Imaging & Therapy Committee
Marianne Patt, EANM Radiopharmacy Committee
Johnny Vercouillie, EANM Drug Development Committee

The M2M track comprises a series of plenary lectures, CME sessions, symposia and focused scientific sessions, all of which have the aim of connecting fundamental research with unmet medical needs and vice versa.

The EANM Committees for Translational Molecular Imaging and Therapy, Drug Development and Radiopharmacy jointly coordinate the scientific programme of the M2M track, while the EANM Executive Office handles organisational matters.

We hope you will enjoy the sessions of the M2M Track 2020!

Fijkstra van Leeuwen, EANM Translational Molecular Imaging & Therapy Committee
Marianne Patt, EANM Radiopharmacy Committee
Johnny Vercouillie, EANM Drug Development Committee

The EANM Committees of Dosimetry, Radiation Protection, and Physics will coordinate the scientific programme for the meeting jointly with the support of the Congress Chair.

We are looking forward to welcoming you to EANM’20. Be part of it!
Dear colleagues and friends,

On behalf of the European Association of Nuclear Medicine Technologist Committee, I kindly invite you to join us at the 33rd Annual Congress of the EANM.

This year, the EANM congress will once again provide a full program dedicated to technologists. The focus will be on topics that are important for current practice in the nuclear medicine field, a sector in which scientific and technological advancements have been great. A wide range of subjects will be covered during the Congress. These will include quality control and calibration of instrumentation for imaging and dosimetry, updates in pediatric and neuroendocrine tumor imaging and topics such as departmental organization and advanced competencies.

As in previous years, the chosen topics will be addressed in seven Continuous Technologist Education (CTE) sessions and three mini-courses (MC), during which specialists will share their expertise and knowledge with the audience.

We are very proud to announce that one talk as part of the “Total Body PET” plenary on Thursday will focus on “Challenges for Technologists.”

Another new feature at this year’s edition will be the Mid-Congress Symposium for Technologists. The “Introduction to Dosimetry” session will be a full-day symposium.

Owing to its visibility and the number of attendees, the EANM Annual Congress offers an excellent opportunity to share original research and clinical work, and the EANM-TC will be accepting abstracts from nuclear medicine technologists and related clinical scientists. To provide space for participants to present the results of their work, three oral presentation sessions and two e-poster presentation sessions will take place during the congress. In recent years, we expect that these sessions will be of very high quality and offer a useful means to promote and share work. As an additional motivating factor, an award will be given to the best three oral presentations as well as the best e-poster presentation.

With my best regards,

Andrea Santos
Chair, EANM Technologist Committee
TECHNOLOGISTS’ TRACK

The Technologist Committee places a massive effort into delivering the most up-to-date and highest quality educational initiatives. All sessions of this track are aimed specifically at the technologists’ audience.

Mid-Congress Symposium

13 Wednesday, October 28, 09:00 – 16:00
Mid-Congress Symposium for Technologists – Introduction to Dosimetry
Technologist + Dosimetry + Physics Committee

CTE Sessions

1 Thursday, October 22, 13:30 – 15:00
Tech Guide Launch
08:00 – 08:10 Opening Technologist Track
08:10 – 09:30 Technologist Committee

2 Thursday, October 22, 16:35 – 18:05
Update in Paediatric Imaging
Technologist + Paediatrics Committee

3 Saturday, October 24, 09:00 – 10:30
Calibration for Instrumentation for Dosimetry
Technologist + Dosimetry Committee

4 Saturday, October 24, 10:40 – 12:10
NET Imaging and Therapy
Technologist Committee

5 Friday, October 30, 09:00 – 10:30
Departmental Organisation
Technologist Committee

6 Friday, October 30, 10:40 – 12:10
Advanced Competencies
Technologist Committee

7 Friday, October 30, 13:50 – 15:20
Quality Control of Imaging Instrumentation
Technologist Committee

In addition to the CTE Sessions the Technologist’s Track includes 3 Mini Courses:

1 Friday, October 23, 09:00 – 09:50
New Developments in Cardiac Imaging Instrumentation
Technologist Committee

2 Friday, October 23, 10:00 – 10:50
Advanced Practice in Hybrid Nuclear Medicine
Technologist Committee

3 Friday, October 23, 11:00 – 11:50
Alpha Emitters in Therapy
Technologist Committee
e-POSTER AREA +
ON DEMAND SESSIONS

e-Poster Presentation Sessions
All accepted e-Posters can be viewed in the digital e-Posters Area. For any additional questions, the e-Posters submitters can be contacted via email through the e-Poster Area System.

On demand sessions
All passed sessions can be viewed at any time on demand throughout the whole congress. Please be aware, that CME credits can only be collected for live streamed sessions.

Awards
The following awards will be bestowed during the annual congress:

- EANM Marie Curie Award
- EANM Young Authors Awards
- EANM Technologists Awards

It is also during the EANM Congress that the recipients of the EANM Honorary Membership and the Corresponding Honorary Membership will be honoured.

Further information and guidelines:
http://www.eanm.org/congresses-events/awards-grants/
INDUSTRY EXHIBITION

The industry exhibition will be held virtually and all participants will have access throughout all congress days. You will have the chance to interactively get in touch with the companies.

The industry exhibition is available at any time on October 22-30, 2020.

PRECISELY FOR ME.
Dedicated to giving cancer patients better answers than "maybe".

Developing Targeted Radionuclide Therapies in Precision Oncology.

*Only members who have paid the full amount of their membership fee by May 31 of the respective year, will benefit from the reduced ‘Member’ registration fee for the Annual Congress of the EANM.

** reduced price for Nurse/Technologists, Students and Juniors

1) Physician or other scientist in training, up to the age of 38 (maximum age on November 1, 2020). For Junior Non-Members: confirmation letter (in English) incl. signature of Head of Department and copy of passport showing date of birth are indispensable for proof of status.

2) Nurse, healthcare technologist or laboratory technologist, being employed in a respective current professional occupation. Confirmation letter (in English) incl. signature of Head of Department is indispensable for proof of status.

3) Student without any academic degree, up to the age of 26 (maximum age on November 1, 2020), even if a degree has been achieved in a completely different field and/or has no relevance to the current professional occupation. Confirmation letter (in English) incl. signature of Head of Department and copy of passport showing date of birth are indispensable for proof of status. Students already holding an academic degree (and not older than 38 years of age on November 1, 2020) must register as Junior!
**GENERAL INFORMATION**

**CALL FOR ABSTRACTS**
The deadline for abstract submission is April 25, 2020. Authors will be notified about the acceptance of abstracts by email on June 26, 2020.

**CERTIFICATE OF ATTENDANCE**
Certificates of Attendance will be available in your myEANM area after the congress.

**CONGRESS CLOSING**
The Congress Closing will be broadcasted right after the Highlights Lecture on October 30, 2020. All registered delegates can join online.

**CME CREDITES & CERTIFICATES**
To acquire CME credits, an evaluation form must also be completed for each session attended.

The EANM’20 has been accredited by the European Accreditation Council for Continuing Medical Education (EACCME®) with 31 European CME credits (ECMEC®s). Each medical specialist should claim only those hours of credit that he/she actually spent in the educational activity.

The EANM’20 – Mid-Congress Symposia have been accredited by the European Accreditation Council for Continuing Medical Education (EACCME®) with 2 European CME credits (ECMEC®s). Each medical specialist should claim only those hours of credit that he/she actually spent in the educational activity.

Through an agreement between the Union Européenne des Médecins Spécialistes and the American Medical Association, physicians may convert EACCME® credits to an equivalent number of AMA PRA Category 1 CreditsTM. Information on the process to convert EACCME® credit to AMA credit can be found at www.ama-assn.org/education/earn-credit-participation-international-activities.

**E-POSTER AREA**
As every year, the e-Poster Area gives you the possibility to read all uploaded e-Posters of EANM’20. You can search for authors, topics and keywords.

**LANGUAGE**
The congress language is English. No simultaneous translation will be provided.

**EANM OFFICE**
The congress office will be available during all congress days via email and phone. Further details will be published soon.

**DISCLAIMER**
In the event the congress has to be cancelled by the organisers because of force majeure, the registration fee, and any other payments for services ordered through the registration process will be partially refunded or forfeited, which is subject to the commitments of the congress organisers at that time.

**VIRTUAL CONGRESS OPENING & WELCOME HAPPY HOUR**
All registered delegates are invited to attend virtually the Virtual Congress Opening & Welcome Happy Hour Thursday, October 22, 2020 – 18:00-20:00.

**VIRTUAL INDUSTRY EXHIBITION**
Inside our fully virtual conference halls, the user can enter a real-life animated exhibition hall while being able to move around and navigate interactively.

Visitors will be able to communicate with booth staff via state-of-the-art chat tools, see models of the newest products, participate in raffles and quizzes and even find dedicated job offerings.

All Members of the EANM Nuclear Medicine Community can participate without closing times 24/7 to this active meeting and job-market tool completely free of charge.

**EANM EXECUTIVE OFFICE**

URL: www.eanm.org

**EANM MEMBERS’ ASSEMBLY**
The Members' Assembly will be held virtually on Saturday, October 17, 2020 from 16:30-18:30.

Please note: Only EANM members in good standing (having paid their membership dues for the year 2020) are eligible to attend the Members’ Assembly.

**INTERNATIONAL MEETINGS AND ANNOUNCEMENT SECTION**
